PROFILE

Data analytics enthusiast with hands-on experience in SQL, Power BI, Tableau, and Python. Skilled in building interactive dashboards, performing data analysis, and transforming raw data into actionable business insights.

EDUCATION

New Delhi, India

Bachelor of Science in Physical Science 2022 – 2025

- Among the top 5% of the batch
- Relevant coursework in [Linear Algebra, Numerical Methods, Calculus, Differential Equation]

EXPERIENCE

- Built interactive dashboards using **Power BI** and **Tableau** to analyze sales and financial data
- Applied **DAX measure, Calculated Fields, and Data Modelling techniques to** transform raw datasets into meaningful insights
- Performed **Data cleaning, Data processing**, and **Visualization** to support **Data Driven Decision making**
- Built interactivity dashboard for **Sales Analysis, Customer Segmentation, and Geospatial Insights** to identify high revenue regions, product performance tracking, and customer trends.
- Strengthened practical skills in **Business Intelligence, Dashboard Development**, and **Analytical Problem solving.**

SKILLS

Technical: Data Cleaning & Preprocessing, Data Wrangling, Exploratory Data Analysis (EDA), Data Visualization, Forecasting, Business insight Generation.

Tools: Excel (Pivot Tables,LOOKUPS), SQL, Python (Numpy, Pandas), Power BI, Tableau, Matplotlib, AI tools.

CERTIFICATIONS

- Data Analytic Certification – Tutedude
- Power BI Certification – Tutedude
- SQL Certification –*Tutedude*
- *Tableau Certification* – Tutedude

PROJECTS

Amazon Sales Analysis (POWER BI)

- Analyze Amazon sales performance
- End-to-end Power BI Project, Data Cleaning, DAX Measures, Multi-Dashboards,
- Result: Helps business stakeholders to identify high and underperforming regions, monitor product performance

Netflix Financial Statement Analysis (TABLEAU)

- The Dashboard represents full financial statement with visualizes financial metrics, time series graphs, KPIs.
- End-to-end Tableau project, Data wrangling, Calculated columns, Time-series analysis, Region-wise Analysis.
- Result: Helps to gather info about P&L statement structure, multi-level profitability, expense vs revenue comparison.

E-Commerce Sales Analysis (MYSQL)

- This Project focuses on relational e-commerce database and performing detailed business driven sales analysis.
- End-to-end SQL project, Table Creation, Data insertion, ERR Diagram, Schema Design, Table Relationships.
- Result: Helps in business decision making based on general sales insights, customer insights, product & order insights, temporal trends, regional insights, return & refund insights
